# Psychic Code of Ethics

## My Psychic Declaration of Principles

*Please note that the word “Psychic” and “Psychic Readings” used in context of this document includes and refers to Mediumship and Channeling sessions.*

1. I am working to enhance the image of the metaphysical community by living with personal and professional integrity.
2. I am treating all persons equally without prejudice or discrimination because of sex, race, ethnic background, color, political affiliation, religious affiliation, or sexual preference.
3. I am scrupulously avoiding fraudulent claims, practices, and promises, and I always strive for quality in readings and all metaphysical and spiritual work.
4. I am encouraging seekers to accept total responsibility for their lives and the choices they must make in their lives.
5. I honor the other person’s point of view, even though they may differ from mine, and *at all times I remember that the reading is about the client and not me.*
6. I am setting reasonable fees with no hidden costs or surprise fees. I do not keep the client falsely engaged just to increase my fee.
7. I am keeping all readings confidential and discreet.
8. I am not claiming 100% accuracy in my readings because no one has or is meant to have all the answers all the time. Spirit, God, and/or the Universe has a plan that is not always revealed to us.
9. I advise my clients that I am not a licensed therapist, psychiatrist, or medical doctor and therefore do not provide a diagnosis, treatment, or psychological counseling.

10. I NEVER tell someone that they are about to die or that they have a terminal disease even if I perceive serious illness may be present.

11. I never try to force clients to accept what I am telling them.

12. I keep the clients' welfare in mind first. In cases where I feel I cannot psychically or ethically serve the client, I advise them honestly and either refund their money or refer them to another reader.

13. I do not read for persons under the age of 18 years old without parental consent.

15. I do not offer psychic readings to persons who are intoxicated, and do not provide readings if I myself have been drinking or partaking in recreational drugs.

14. I do not psychically spy on others nor do I provide 3<sup>rd</sup> party readings for the benefit of a client. And I will not work on behalf of a client to manipulate another human being by using my foreknowledge of future events.

15. I am not a fortune teller or a mind reader, nor do I entertain someone who seeks to have me "prove" the them that I am "real". I respect and value the years 40 plus years of training I have received and will immediately end the session

16. *I never provide readings or psychic insight to others without their consent.* I never spontaneously walk up to people and provide them with readings, and I never provide readings to people in public places to show case my psychic skill knowing that such practices are purely ego based.

17. Finally, I promise to work conscientiously for the highest and best good of my clients.
